My Jupyter-like Notebook

My Jupyter-like Notebook

Introduction

This is a simple R Markdown document that resembles a Jupyter notebook. It allows you to mix text, code, and results in a single document.

Code Execution

You can execute R code chunks by clicking the 'Run' button in the code chunk or using the keyboard shortcut 'Ctrl + Enter'.

```r
# This is an R code chunk
# You can execute R code here
library(ggplot2)
ggplot(mpg, aes(x = displ, y = hwy)) +
  geom_point() +
  labs(title = "Fuel Efficiency vs. Engine Displacement")
```

Fuel Efficiency vs. Engine Displacement
